**Restrictions and acknowledgements:**

I understand that I must be in attendance of the fire as long as it's burning. I am only allowed to burn during daylight hours and am not allowed to burn anything except natural grass, brush, branches or wood. This does not include any construction materials. I am still obligated to control the fire and may still be fined if materials get out of control during my burn. I also understand that I may not burn during windy conditions. O.M.F.D. reserves the right to inspect the burn site at any time prior to or during burn permit time for approval of materials to be burned.

By signing below, I understand restrictions for burning and take responsibility for burning on my property.
